

KidKare Billing

New Billing Structure

How the New Billing Process Works

Under the new billing structure, we will generate invoices for the following:

- Any providers who were active at any time during the prior month.
- Any centers who had a claim during the prior month.
- Any centers who are active, but have not had any claims in the past two (2) months.

Refer to your contract for specific line-item pricing and any applicable discounts. Your invoice will list the following items:

- Billed Items
- Description of Billed Items
- Quantity of Billed Items
- Applied Discounts
- Total Billed Amount

Billing Timeline

We will run billing on the first of each month for activity that occurred in the previous month. This means that you can expect to receive a normal invoice for your **September claims activity on October 15th**. The invoice will exclude any October activity. You will receive your first invoice under the new billing structure for **October claims activity on November 1st**.

Claim Month Billed	Invoice Date	Billing Structure
September	October 15, 2019	Old
October	November 1, 2019	New

Note: Any September/late claims submitted through **October 15th** will be billed at the old rate for the first month's transition. Any late claims submitted after **October 15th** will be billed at the new rate.
